

COMMUNITY PHARMACISTS ON THE FRONT LINES: OPIOID OVERDOSE AND NALOXONE TRAINING

Sunday, March 11, 2018 2:00–3:30 PM

St. Louis College of Pharmacy, Academic & Research Building, Room 222

Cost: \$0.00

Amy Tiemeier, Pharm.D., BCPS
Nicole M. Gattas, Pharm.D., BCPS, FAPhA
Kelly N. Gable, Pharm.D., BCPP

Open to both pharmacists and pharmacy technicians, this program addresses the current opioid crisis state-wide and nationally. This program will provide both audiences with the knowledge they need to dispense naloxone and educate the community. Register online at www.stlcop.edu/ce.

At the completion of this activity, the participant will be able to...

PHARMACISTS:

1. Describe the process to provide direct consumer access to naloxone including Missouri standing order.
2. Describe the role of pharmacy personnel in opioid overdose management.
3. Identify risk factors for opioid overdose and symptoms of an opioid overdose.
4. Discuss naloxone rescue therapy mechanism of action, appropriate use, and available delivery systems.
5. Identify ways to engage patients in discussion and education on naloxone.

TECHNICIANS:

1. Describe the process to provide direct consumer access to naloxone including Missouri standing order.
2. Describe the role of pharmacy personnel in opioid overdose management.
3. Identify risk factors for opioid overdose and symptoms of an opioid overdose.
4. Discuss naloxone's appropriate use and available delivery systems.
5. Identify ways to engage patients in discussion about naloxone.
